

Reconstructive Microsurgery  
European School

# CLINICAL IMMERSION PROGRAMME

## Barcelona Breast Surgery Fellowship

### Programme director

Jaume Masià MD, PhD

### Duration

6 -12 months

### Venue

Plastic surgery Department. Hospital de la Santa Creu i Sant Pau  
Barcelona (Spain)

HOSPITAL DE LA  
SANTA CREU I  
SANT PAU

UNIVERSITAT AUTÒNOMA DE BARCELONA

Barcelona  
Lymphedema  
Research Group

During this period the fellow will be totally integrated in the Plastic Surgery Department, joining in all the clinical activities, outpatients, ward-rounds, operating rooms, journal clubs, training labs...

Different types of breast reconstruction will be developed including autologous (pedicled flaps, free flaps and perforator flaps), implant breast reconstruction, and breast cancer oncoplastic approaches.

The Surgical approach of the Lymphedema, techniques of breast reduction and mastopexy, implant breast augmentation procedures, revisional breast surgery and fat grafting will be performed by the different members of the department.

We also encourage the fellow to join at the research activities of the Department.

This fellowship could be validated as part of the Flexible plan programme (Clinical immersion) of the European Master's degree in surgical oncology and reconstructive breast surgery and International Master's degree in reconstructive microsurgery.

## ELIGIBILITY
